

HEAVY SLUMP FOR COUNTY ROAD BOND

Embezzlement Charged

COMMISSIONER MAKES BOND IN JUSTICE COURT

Mayor Charges Jones With \$10,000 Fraud in City Money and Bonds.

HEARING DECEMBER 20

Action Follows Audit of City Books Recently; Jones Replies.

Charges of embezzlement about \$10,000 of the city's money and securities were filed yesterday in justice court here against W. B. Jones, city commissioner of accounting and finance. The complaint was entered by Gary Kitchens, mayor.

Immediately after his arrest, Jones appeared and made bond for \$5,000 for his appearance before Justice of the Peace H. J. Brown on December 20 for his preliminary.

The mayor's charges, which covered two pages typewritten, enumerated in detail his allegations against the commissioner of finance. Embezzlement charges followed the announcement of an audit of the city's books which has been completed recently by bonded auditors brought here for the purpose. Jones was still in office this morning. Mayor Kitchens' office was locked and he was understood to be out of the city.

Kitchens' complaint charges that on or about November 6, 1921, the commissioner of finance "did commit the crime of embezzlement" by "unlawfully, wrongfully, and feloniously, and without authority or law, steal, carry away, embezzle and convert and appropriate to his own use and benefit a part of the money, bonds, securities, assets and effects of his office to the amount of \$10,000."

Charges further detail that Jones occupied the office of commissioner of accounting and finance from July 1, 1919 to November 8, 1921, and as such was ex-officio city treasurer, being entrusted with the "safe-keeping, transfer and disbursement of public money and other funds, property, bonds, securities, assets and effects, all belonging to the city of Ada."

W. B. Jones was elected to the office of commissioner of accounting and finance in 1919 and was re-elected once.

New Audit Started.

When Mr. Jones and his attorney Robert Wimlish of the firm of Wimlish & Duncan and L. M. King of the firm of Crawford & King, were seen today, they made the following statement:

"We believe a mistake has been made by the accountants who audited the city books. We understand they are commercial and not municipal accountants. Arthur Jones, a certified public accountant of the firm of Riggins, Beck & Jones of Oklahoma City and a recognized authority in an accountants of municipal books, has been employed to audit the books and is now at work on them. We believe that when his reports come in, they will show an entirely different result. Mr. Jones has not knowingly taken anything. We simply ask that the public suspend judgment until this report has been made."

HERRERA BEING HELD TODAY AS WAR PRISONER

(By the Associated Press.)
WASHINGTON, Dec. 7.—Carlos Herrera, whose government was overthrown in Guatemala at midnight Monday after fighting, was reported in advices to American officials today to be a prisoner in his residence. Members of his cabinet, the advices said, were being held in the military prison.

About a dozen persons were killed in the revolution, the official advices received here today said, and many persons have been arrested. The Guatemala capital was reported quiet at the time the dispatches were filed yesterday. The revolution began about Monday night and was completed about 5 a. m. Tuesday, the advices added.

ZEP DESTROYER BEGS FOR WORK

Capt. Aylmer Brandon.

NEW YORK, Dec. 7.—(Special)—With medals and no money jingling in his pockets, Capt. Aylmer Brandon, the American who shot down the first Zeppelin in the war, was found begging for work in this city. He admitted that hunting the enemy 20,000 feet in the air is considerably easier than hunting a job on solid ground.

Captain Brandon was born in California, went to Europe as a youth, and after studying at Oxford and other places entered the University of Paris. He became interested in aviation, and in the year before the war was an accredited air pilot. He was living in Paris with his wife and two children when the war started.

The first Zeppelin raid over Paris left in its wake a number of dead—among them the two small children of Brandon. He enlisted thereupon in the French flying corps, later transferring to the British air force, where he became one of the famous "Black Devils."

Captain Brandon brought down the first Zeppelin over England. For this exploit he received the military cross. In October of 1916 he was decorated by King George with the D. S. O. Later he was made a member of the French Legion of Honor and awarded a number of other decorations. In 1917 he was shot down with his plane and lost an arm and a leg.

Group From Ladies Auxiliary For C. C. Visits High School

Education Week in Ada schools registered another notch in its progress Wednesday when a committee of 15 local women, representing the Ladies' Auxiliary of the Chamber of Commerce, visited the high school. A complete inspection of all work being done by the institution was carried out.

Following are the ladies who made up the visiting committee: Mesdames Nethery, Hope, Shelton, Hickman, Grainger, Jones, Holcom, Stall, Bowman, Hale, Wimlish, Duncan, McKinley, Simpson and Seale.

The local program for education week calls for visit from committees of practically all civic organizations of Ada to city schools. These, in turn, will report back to their respective organizations, thus forming a much closer co-operation between the public and the schools, according to expectations.

In November, \$18,525 in building permits were issued by the city, according to the records of the books at the city clerk's office. Of this amount \$10,000 was for the home being constructed by N. B. Stall on East Sixteenth street. This is the lowest amount of permits issued any month this year.

ADA HIGH JOINS CONFERENCE FOR EIGHT SCHOOLS

City To Have Delegate at Meeting December 18 to Perfect Plans.

ORATORY INCLUDED

Chances For Locals Next Year on Grid Schedule Appear Promising.

Friends of Ada high school today greeted with joy an announcement that the school has joined a high school conference and will for the next year make out athletic and literary schedules to correspond with rulings of this association, to be known as the "Southern Conference."

This conference, which was tentatively organized by representatives of the Chickasha, Norman, Ardmore, Lawton and Duncan high schools at a meeting held in Norman last Saturday, will include in addition to these schools, Ada, Altus and Pauls Valley, all of which will play football and basketball games on a scholastic basis.

Ada high school has joined her first conference. A meeting will be held by representatives of the eight high schools on December 18 at Chickasha, at which a constitution and by-laws to govern the conference will be drawn up, contracts signed and schedules worked out. The basketball season for the local school will be worked out at this time. Ada will be required to play four games with teams in the conference, according to preliminary plans worked out at the first meeting.

Non-Athletic Events Too. One of the features which is of special interest to the local school is the fact that not only will athletic games be included in the conference regulations, but debating, oratorical and declamation contests will be held. Debate and declamation schedules are now being worked out. Prof. A. L. Pentem stated today that Ada is strong in these particular lines and that an effort will be made to put the local school on the map from a conference standpoint.

As basketball prospects look good for this season, he believes that the school will be justified in scheduling games with these schools. The past football season has proved to local sport fans that Ada high is not lacking in athletes. Next year's football schedule promises to be the most important scholastic in the conference layout, and with eight letter men, the home team is confident of finishing high.

In all probability the conference basketball season for the local schools will be worked out at the Chickasha meeting December 18. Only four games will be required by the local school with other conference teams, allowing open dates for neighboring towns, which are looking to Ada for revenge for some healthy defeats handed them by the local gridiron squad. No definite schedule has been worked out, but it was said that Chickasha, Pauls Valley, Holdenville, Durant, Wetumka, Sulphur, Ardmore, Norman and Duncan would probably be played this season in basketball.

May Play Outside Teams.

In the football schedule each conference team will be required to play at least three games, but not more than five games. This is also done to enable the high schedule to get games with teams outside the conference. Because some of the schools are so far distant, it was at first thought that the athletic fund would not be able to support conference expenses, but with the provisions outlined it is believed that Ada will be able to clear financially on all games.

Another of the features of this conference is an invitation track meet. This meet will include athletes from all schools in the conference. A place for the meet will be decided on at this month's meeting, it is said, and the declamation and oratorical contest will probably be held in connection with this meet.

Modern Klan Sends Floral Tribute To Funeral of Pioneer

Tribute from members of the new Ku Klux Klan to one who is believed to have been a pioneer of the old was paid here Saturday afternoon at the funeral of J. W. Meaders, father of Frank W. Meaders of this city, at the home of the latter, 521 South Broadway.

An easel placed near the coffin supported a huge offering of white flowers with the initial letters "K. K. K." neatly woven in red flowers across the center. A card on the floral offering said it was sent by Ada Klan No. 27. This is the first time the local Ku Klux has been in evidence at the funeral.

J. W. Meaders, whose home was at McAlester, was 86 years old at the time of his death. He was a native of Mississippi in which state he spent more than 20 years as an educator. Funeral services were conducted by Rev. J. H. Ball, pastor of the Methodist church.

ULSTER TO GIVE HER IDEA TODAY

Copy of Treaty Between British and Sinn Fein Reaches Belfast.

(By the Associated Press.)

LONDON, Dec. 7.—Ulster's attitude towards the establishment of the Irish Free State was expected to be defined today at a meeting of Sir James Craig's cabinet. A copy of the treaty signed by the British and Sinn Fein peace delegates reached Belfast yesterday while parliament was sitting but the presentation was delayed by the premier until he had time to study it.

It is certain that the treaty will undergo searching examination before receiving the approval of Ulster, and many modifications undoubtedly will be proposed.

Her consent however, is not necessary, as under the treaty she is given the option of retaining her present status, after revising her boundary by a commission.

Favorable action by the Dail Eireann is thought to be fairly certain and it is believed that the imperial parliament which has been summoned to meet December 14 is a foregone conclusion should the Dail approve the treaty.

Here and there amid the general chorus of praise for the agreement is sounded notes of warning that troubles may yet break out before a final settlement is effected and this warning does not come from quarters opposed to the agreement. It is pointed out that nobody has drawn from Eamonn de Valera, the Irish republican leader, a statement as to his attitude towards the plan.

Craig Reserves Statement.

BELFAST, Dec. 7.—Sir James Craig, the Ulster premier, told the Ulster parliament today he did not think it expedient to make any statement with regard to the details of the New Irish proposals, as there were ambiguities here and there in the document.

LONDON, Dec. 7.—King George today issued a proclamation releasing all political prisoners interned in Ireland.

BOY INJURED IN FALL FROM TREE DEAD TODAY

Work has been received here to the effect that Lawrence Parger, son of Mrs. Mary Parker, who was fatally injured when he fell from a pecan tree near Madill on November 21, died at the Sherman hospital on Dec. 3. Funeral services were held in Sherman and the body was to be interred there.

He was 19 years of age and was the only son of Mrs. Parker. He was threshing pecans at the time of the fatal fall, which broke his spine and injured him in legs and shoulders.

In Ohio and Pennsylvania employed women are not permitted to lift weights of more than 15 pounds. New York's labor laws place the maximum at 25 pounds, and Massachusetts at 40.

BIG FOUR SEEKS NO ENTENTE FOR SELFISH GAINS

Four Power Agreement As Now Proposed Would Be For Consultation.

DEALS WITH PACIFIC

Substitute Designed for the Anglo-Japanese Alliance; Harding Well Pleased.

WASHINGTON, Dec. 7.—The four power agreement being considered by the United States, Japan, France and Great Britain, it was learned today from official American sources, would be an agreement for joint consultation on any matters affecting interest of those nations in Pacific islands and not an alliance or technical entente.

The agreement is in process of being reduced to treaty form, it was said, and if accepted is to be submitted to the senate.

The agreement, American officials said, would not deal with fortification in the Pacific nor the question relating to the island of Yap. Neither would it deal with any matter affecting China, but only the islands of the Pacific.

The question at issue between the United States and Japan regarding cable facilities and other matters affecting the island of Yap are to be dealt with in a separate treaty, which was said to be nearing completion.

The proposed undertaking is designed to do away with the Anglo-Japanese alliance, and proposals have been sent to the government of Japan for renunciation of that alliance if the new agreement should be consummated.

As now under negotiation the agreement is to be limited to the Pacific islands. The undertaking is to reach a tentative proposal by which each of the powers would agree to consult each other before going to war on any thing that related to islands of the Pacific.

Harding Is Hopeful.

Belief that the arms conference "will decide on the wisdom of coming together—nations facing each other and settling forth problems without resort to arms" was expressed today by President Harding in receiving a large delegation representing the national board of farm organizations.

The president told the delegation he did not claim any special merit for calling the conference but that "my only thought was to do my duty."

The delegation, which was accompanied by a number of other members of congress, congratulated Mr. Hughes upon the progress of the conference and pledged its complete support to policies of the American government as enunciated in the conference.

OKLAHOMA WEATHER.

Tonight rain or snow, colder. Thursday fair.

Overwhelming Vote Kills All Proposals For Roads Except in One Township

Maxwell Carries \$30,000 Issue in Voting Tuesday With Big Majority; Center and Lawrence Also Favor Big County-Wide Proposal.

There will be no bond issue in Pontotoc county for good roads and bridges, nor will there be one in any township, except Maxwell. Such was the overwhelming verdict at the polls Tuesday. Maxwell, Center, Homer, and Lawrence were the only boxes received up to noon today giving a majority for the bonds. Lawrence was unanimously for both township and county bonds. Maxwell was strong for both issues but the township proposition was the more popular.

FAMOUS SURGEON TO RETURN TO VIENNA

NEW YORK, Dec. 7.—Dr. Adolph Lorenz, famous Austrian surgeon, announced today that in view of the opposition to his professional activities in this country from the medical profession, he would discontinue further services and return to Vienna as soon as possible.

STRIKE REPORTS STILL CONFLICT

Idle Packers Declare 1,000 Men in Oklahoma City Are Out Today.

(By the Associated Press.)

OKLAHOMA CITY, Dec. 7.—The beginning of the third day of the strike of packing house employees here was marked by the persistent statements of union heads that 1,100 men are striking and the offers of the plant superintendents to show any one through their respective plants and prove that more than 50 percent of their forces are at work.

The combined forces of Wilson & company and Morris & company, is between 1,200 and 1,500, according to plant officials.

Packing house officials reported that they have been able to meet all shipments due and that they expect operations at normal capacity to be reached by Friday. From Wilson & company came an announcement that a normal number of cattle is being killed.

Aside from the disorders yesterday and Monday, in which three workers were beaten, no disorders have been reported. Fred Kemp, secretary of the local butcher workers' union, declared that his order for an "ice cream social strike" are to be carried out.

Twelve pickets remained on duty during last night.

Picketing Is Enjoined.

FORT WORTH, Tex., Dec. 7.—An injunction restraining packing house workers from picketing the plants or loitering in the vicinity was granted in district court here today. It was issued on petition of Armour & company.

Engineers in Sympathy.

ALBERT LEE, Minn., Dec. 7.—Engineers, firemen and steam fitters of Wilson packing plant here went on strike today in sympathy with the strike of the meat cutters and butcher workers. They were declared to be acting on orders from national headquarters of their union.

BUTCHER STRIKE ASSUMES GRAVER ASPECTS TO-DAY

CHICAGO, Dec. 7.—The strike of union packing house employees in the larger centers of south side Chicago appears more serious than was at first anticipated, on the third day of the strike. The walkout has already been marked by disturbances in which a few men were injured and authorities are preparing to cope with any situation which may arise.

Union leaders insist that the strike is "100 percent effective" while the packers, although admitting work is hampered in some quarters, say that production has been but slightly affected.

S. A. Cummins, local undertaker, was in Francis yesterday looking after business matters.

Robert Bennett has been granted a building permit for a \$3000 residence on his property in Sunrise addition.

Maxwell Box Polled 133 Votes For and 13 Against the Township Bonds, While Bebe, the Other Box in the Township Gave 6 For and 65 Against. This Gives the Township Bonds a Majority of 8 Above the Required 60 Percent of the Total Vote Cast. This Issue is for \$39,000.

In Ada the proposition lost in every ward. The total was 226 for and 330 against.

The following figures were gathered hastily as the boxes came in but the official count is expected to show approximately the same.

EXTRA GRAND JURY IS ASKED TO INVESTIGATE

(By the Associated Press.)

NEW YORK, Dec. 7.—Samuel Undermyer, counsel to the Lockwood legislative commission investigating housing, announced today he had requested the convening of an extraordinary grand jury to consider evidence against officials of the electrical workers union No. 3, indicting commissioners for grand larceny and conspiracy to extort money from non-union workers. Testimony was to the effect that the extortions amounted to \$25,000 yearly.

BIBLE THOUGHT FOR TODAY
LORD SEES ALL:—For the eyes of the Lord run to fro throughout the whole earth, to shew himself strong in behalf of those whose heart is perfect toward him. 2 Chron. 16:9.

LET'S GO.
The Chamber of Commerce has begun a campaign to put new life and new spirit into the organization. To assist in this effort the directors obtained the services of a bureau which has become known far and wide for its ability to form and put to work a modern Chamber of Commerce. Two representatives of this bureau are on the ground, and their success will be small or great in the degree with which we co-operate with them.

A modern chamber of commerce is something different from the old type. It was considered at one time that a chamber's only duty was to get new industries into a city, overlooking the underlying and basic causes for a city's growth. The old idea was to get the industries and all other things would be added. The new idea is to get the right kind of spirit of service and the industries will be added. To do this, a Chamber of Commerce must have a definite program of work and must have systematized committee work. Every one in the organization must work, and not simply the secretary.

A modern Chamber of Commerce seeks by holding a high ideal before the community to get the largest possible number of thoughtful, earnest citizens into a permanent group to think and act together.

It seeks to make out of this thinking a program of work as carefully planned and tenaciously worked upon as the sales campaign of a business corporation—but here the thing sold is the City.

More boosting does not get anywhere. The booster goes home and lets George do it.

The modern Chamber of Commerce is a compact, skillful machine for harnessing the booster's energy into results.

The modern Chamber of Commerce is a clearing house for all community efforts. It ought to correlate all activities so as to prevent duplication of time and effort and costs.

The scientific organization of a modern Chamber of Commerce discovers and brings out the natural leaders and gives them a chance to work for the city.

We believe much good can come from this campaign. We have maintained an effective Chamber of Commerce for years, but, like a church organization, we need a revival occasionally and new lamps lighted.

A DISAGREEABLE FACT.
The following is clipped from the Duncan Banner. It certainly hits the nail squarely on the head, for the class it refers to is found everywhere and is no credit to any community. Says the Banner:

About the sorriest thing in all this world is the person who stands around wherever it can get and an audience and expostulates on how the city, the county, the state and the nation should be run. If their past is run down it will be learned that they have never done a single thing, besides bellyache, to cause anyone to take notice of them. That's one of the easiest things to do in this life, just tell how to do things. It's the man who does them that has the real work to do.

Sometime ago when the publicity man who is trying to keep Ponca City in the spotlight sent out a dispatch to the newspapers to the effect that a young fellow of that place was the object of so much vamping on the part of the dashing girls of the city that he had applied to the police for protection, we gave him credit for being the best man in his line in Oklahoma. Now he comes along with a story of a spring which after flowing water for ages has changed to oil, several barrels issuing daily from said spring. All the papers are carrying the item and Ponca City is getting a lot of attention. We'll have to bring that fellow to Ada someday. Perhaps he can find a spring around here flowing corn juice or else the honey pond and pancake trees people used to hear were somewhere in Texas.

"It isn't what you call it, but what it is, that counts," says Senator Borah. The popular song writers ought to be able to do something with the line, whether the diplomats can or not.

The factories in Russia are closing down because Russian money is worthless. When a few more of the Russians begin to see that all the Bolshevik government offers them is nothing for something, more than the factories will be closed down.

Judging from the quantity of used cars on the market, there are quite a few people unable to support an automobile in the style to which it is accustomed.

FRESH MEAT HOLIDAY!

MEAT CUTTERS AND BUTCHERS STRIKE INVOLVES 45,000 PACKING HOUSE WORKERS IN 15 CITIES

The Forum of the Press

You, He and She.

(Bartlesville Examiner)
The shifting of American women, from the home into business, has reached the point where there is one woman to every four men "earning their own living."

This is shown by an analysis of the latest reports covering the census taken in 1920.

With a total population of 105,708,771 men, women and children, the United States has 41,603,192 "gainfully employed." Of these, 8,469,207 are women.

Housewives—the hardest workers of all—are not included among those "gainfully employed." Probably this is because most of them work without gain, for love.

One of these days, housewives will be on salaries, with laws compelling husbands to give their wives percentage of their earnings.

Early settlers of America made their living with ax, spade, hoe and gun. Time and a complex civilization have turned human economies into such an intricate machine that the majority of us have no clear conception of our relation to the whole work.

The cog knows that it must click so many times a day. It doesn't see all the wheels. The face of the watch, with its moving hands, is the combined result of all the wheels. None of us get a good idea of what the hands are registering. It takes the perspective of centuries to determine just how much the watch is deviating from correct time.

Our system of economics is intricate, yet simple. Think of it in terms of 106 people instead of nearly 106,000,000, and its works like this, in rough figures:

Thirteen working in manufacturing industries.

Eleven growing food and forests.

Four acting as salesmen.

Three doing special "personal service."

Three keeping the records.

Three providing transportation.

Two serving as doctors, dentists, lawyers, etc.

One mining and preparing minerals.

One in public service.

That accounts for 41 "gainfully employed." The rest of the 106 are keeping house, going to school, idling, or segregated under lock and key.

Multiply the above figures by 1,000,000 and you have, roughly, figures for our whole population. Where is it all leading us? If you could come back to Bartlesville 1000 or even 500 years hence, what would life be like?

Probably you would find a city of big buildings, each with its kitchens, house cleaners and nurseries for many families. Plenty of apartments already have the germ of this idea.

Future civilization will have a system so complicated that the best auditor of 1921 could not grasp its workings.

The Business Situation. (End Events)

It is the opinion of business experts that the country for the past year has consumed goods faster than it produced them. In many industrial centers the factories have been running on short time, yet in these same towns the stores have reported a fair business. Householders have been drawing on their savings accounts laid up during the period of flush wages, indicating that consumption has run ahead of production. There must have been a large

DANGERS OF A COLD

Ada People Will Do Well to Heed Them.

Many bad cases of kidney trouble result from a cold or chill. Congested kidneys fall behind in filtering the poison-laden blood and backache, headache, dizziness and disordered kidney action follow. Don't neglect a cold. Use Doan's Kidney Pills at the first sign of kidney trouble. Follow this Ada resident's example:

R. O. Hackett, drilling contractor, 224 E. Third St., says: "I can recommend Doan's Kidney Pills, as I have found them very satisfactory for backache and muscular lameness. If I strained my back or took cold, it always seemed to effect my kidneys and start a dull, nagging ache across the small of my back. When I have had these spells, I have taken Doan's Kidney Pills and they have soon fixed me up in good shape. I always tell everyone I hear complaining of kidney trouble to give Doan's a trial."

Price 60c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Hackett had. Foster-Milburn Co., Mfrs., Buffalo, N. Y. (Adv)

ATLANTA FIRE FIGHTER RELATES EXPERIENCE

It is what the people say about Pomeroy's Puratone that is making it such a tremendous seller in the south.

L. O. Laney, a well-known fireman on duty at fire station No. 8, Atlanta, Ga., is among the many who received remarkable benefits from the medicine. In a statement made the other day Mr. Laney said: "Pomeroy's Puratone has overcome troubles that have been pulling me down for six years. I suffered terribly with stomach trouble, indigestion, thanks to Puratone I am feeling fine once more, and I have only taken two bottles of this medicine. I now eat three meals every day, enjoy every mouthful and have

ATLANTA FIRE FIGHTER RELATES EXPERIENCE

no bad after-effects. I sleep sound and feel fine all day. I don't have smothering spells like I did before taking this medicine—in fact, all my disagreeable symptoms have disappeared. I am recommending Pomeroy's Puratone to all my friends. It is a wonderful medicine."

Puratone is purely vegetable and is being recommended for such cases as those told about above. More than one hundred thousand bottles have been sold and distributed since it was first introduced a few months ago. Puratone is sold in Ada by Gwin & Mays Drug Co. (Adv)

Muster in Guard Unit.

Announcement was made today that the mustering in of headquarters detachment, artillery section, O. N. G., would be held at the city hall at 7 o'clock tonight. All men who have been recruited in this detachment are requested to be on hand on time. Officers from the state headquarters will be here to have charge of the work.

OPOSSUM MUFF AND SCARF ARE PRETTY

As lovely as chinchilla are some of the new Australian opossum muffs and scarf sets. The new sets for winter have round muffs and choker collars. This pretty set features long satin sash ends which are finished with tails of opossum and which the smartly where the wearer wills.

**Humorous Role in Springtime.**

One of the finest roles in "Springtime" the musical comedy to be given at the Teachers' College on Dec. 15, 16, is that of Abigail Tompkins, played by Miss Grace Harrison. In the first act she is an ingenious girl trying to capture the heart of Bobby Brewster, played by Hubert Priest. In the second act she is still ingenious but no longer young, and her method of extracting money from the amorous Bobby is one of the most amusing parts of the play.

Three lovely girls who will play leads are Misses Ruth Mount, Dorothy Duncan and Grace Payne. Everyone who has seen them at rehearsals has remarked about their sweet and convincing acting. Their winning smiles and charming personalities are sure to captivate their audiences.

KIDDIES TO GET WHOLE WEEK FOR CHRISTMAS PLAY

A whole week's vacation will be given the school kids of the city in which to enjoy favors of old Santa Claus, according to announcements from the city school superintendent's office today. School will close Friday, December 2, and will not take up until Monday, January 2, 1922.

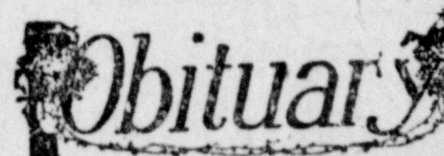

The Teachers College will also dismiss school for a week during the Christmas season. Many of the students will be out of the city visiting home folk, friends and relatives. Locally, many social events are being placed on the calendar for this festive week.

All teachers in the city schools will not receive pay for the week during Christmas holidays, it was announced. This is being done in order to keep the financial standing of the schools in sound condition, it was explained. Teachers were given pay for their vacation week last year, but as it would cost the school board about \$2500 to pay teachers for this week, it was decided to omit the pay.

Old Nest Coming Soon.
One of the finest casts ever assembled will be seen in "The Old Nest," the Rupert Hughes story of mother love and American family life, that will be shown at the American theatre for three days beginning Monday. The story is a film version of a short story that appeared in the Saturday Evening Post, and was produced by the Goldwyn company.

The director, Reginald Barger, is well known for the many fine productions he has made for Goldwyn.

In the cast Mary Alden plays the leading role, that of the mother, who appears first as the young matron with her six children of school age. Then, a little older, with greying hair, she is their companion and advisor. Finally, they grow to manhood and womanhood, leave the old nest and strike out into the world for themselves. Here, the poignancy of Miss Alden's acting as the old mother is irresistible.

B. F. Primm of Francis, age 80 years, died at his home there Tuesday morning. Funeral services were held today at the Seven Day Advent church, with Elder Cromwell in charge. Interment will be in the Cedar Grove cemetery.

The Washington school will give a program at the high school Friday evening at 8 o'clock. Lots of music and an entertaining program expected. Admission 15 and 25 cents. Come and see your friend. 12-7-1t

DRIVE ON HEALTH SEALS GOES OVER

Ada Scores Marked Victory In Drive Monday, County Chairman Reports.

Ada went over the top again today in the campaign to sell her quota of 40,000 Christmas seals launched here yesterday, according to reports of Mrs. Mabel Browall, in charge of the county campaign. So far as could be ascertained this morning, Ada was the first city in the state to dispose of the greater part of her quota of seals. Thirty-three thousand seals sold here the first half day, and the remaining 7,000 were expected to be easily disposed of today, each ward school being given 1,000 seals. All remaining stamps will be sold in booths Saturday.

This is one of the largest quotas that any city in the state has been given, according to population, and local committee leaders are greatly pleased with their success. Many committee leaders declared they disposed of their allotment in a short time and could have sold more if stamps were available. Miles Grigsby, head of the local solicitation committee, stated that in no section of the city had any committee met with opposition in selling the seals.

The Oklahoma Light & Power company was reported to be the largest purchasers, that firm having bought \$25 worth of the seals. Many other bought as many as \$5 and \$10 worth of seals, and individuals took them in large quantities. Only in a few scattered instances did any business firm refuse to buy at least a few and some committee men are of the opinion that more could be sold on re-canvassing the business district. Mrs. Browall stated this morning, however, that she would not send for more seals, as she thought Ada had purchased her share of the state's quota.

Ada Gratified.
One thing that makes the success of the Ada campaign so pleasing, she said, is the fact that some other towns in the country refused to inaugurate a campaign to sell the quotas allotted to them. The state headquarters notified Mrs. Browall that some towns in the county had returned the seals sent them, with a letter to the effect that times were too hard to attempt the drive.

A letter was sent today to the state headquarters asking that half of the amount of cash taken in on the sale of the Christmas seals be kept by the Ada organization. This money, if allowed to remain here, will be used in securing services of a trained nurse to look after

cases that come up in the various ward schools. The state headquarters promised a nurse for the Ada last year, but the plan failed to materialize.

All seals that have not been sold by Saturday will be placed on sale at booths over the city. It is expected however, that the demands for the seals will use the supply that will be left over from the campaign in the city school today.

SUNDAY SCHOOLS WILL SELL RED CROSS SEALS

The sales of Red Cross seals Tuesday was very successful, according to Miles Grigsby, chairman of the solicitation committee. Over 30,000 were sold and through the Sunday schools it is expected to dispose of the supply remaining unsold, around 10,000.

Buy Tuberculosis Christmas Seals.

Mother Says Best Medicine On Earth for Chills and Fever and Teething Children.

Cleburne, Johnson Co., Texas, Aug. 30, 1911. Dr. J. C. Mendenhall, Evansville, Ind. "I have used your Mendenhall's Chill & Fever Tonic and find it the best remedy on earth for chills and fever and teething children. It will do all you claim for it and more. You may print this if you wish." Mrs. M. B. Weaver. Guaranteed better than any other.

AMERICAN TREES HEAL WAR SCARS

Shrubs From United States Help Blot Out Evidence of Armies' Ravage.

(By the Associated Press) WASHINGTON, Dec. 5.—American seedlings, fast growing into mighty trees, already are beginning to heal the war scarred areas of Europe. Not only are they being nurtured in France and Belgium, but in Great Britain also and in Ireland. The French ministry has ordered that the seedlings shall be located in places readily accessible to main traveled roads, and in possible, well known sites "with the view that such future forests shall remain as a monument to the partnership of France and America in the Great War." The same sentiment also prevails in Great Britain which actually lost more forest cover than any other country by the sudden demands of war for materials. In Belgium, in the once beautiful Ardennes, where the German axe left nothing standing the beautiful American Douglass fir is lifting its head.

Trees as Monuments. Arthur Newton Pack of Princeton, N. J., has just made a report to the American Forestry association, which supplied the seedlings, after a three months inspection of the plantings. He reports the trees everywhere are regarded as growing monuments to cordial relations between the allies in the great war. Pack's report shows that the seedlings have been planted along the Chemin des Dames, around Lille, Valenciennes and Hiron at the doors of reviving industry; in the forest of Saint Gobain and around the ruins of the famous Coucy-le-Chateau; in the forest of Mormal where in a 25,000 acre forest of pine and beech the German axe left nothing but the smallest saplings; in the Ardennes Mountains bordering the old duchy of Luxembourg; the County Tyrone, Ireland, where the best nursery showing of any planted by the British forestry commission has been made; and along the Caledonian Canal in Scotland known to all the American navy because it was there the American submarine chasers were mobilized. The magnitude of the work ahead is shown in the report which brings out that Great Britain's program calls for fourteen thousand pounds of seed a year while France needs an equal amount and because of the summer drought Belgium needs almost as much.

One of the first areas where the seedlings were placed by the French government is along the Chemin des Dames where the glory of the American doughboy is forever enshrined. So awful was the artillery fire that hardly a charred stump remains of the once thick forest along the slopes. But now row on row like the poppies of Flanders, the seedlings carpet the slopes once gouged and torn by the battle wheel. America's trees too will be found taking the place of their comrades who fell in the forest of Saint Gobain and around the ruins of the famous Coucy-le-Chateau, dynamited by the retreating Germans.

Germans Cut Timber. "To the north the German army cut ever stick of available timber for its own use," says the report. "In the forest of Mormal stood acres of beautiful pine and beech forest, of which nothing remains today except the stumps. So vast an undertaking is involved in replanting everywhere at once that here the French have adopted a somewhat different system—clearing and spading up only a little circle here and there where in our seed has been sown directly without the intermediate nursery state. The oaks may be heavier, but the labor of reforestation should be lightened. "This experiment with our seeds is of unusual interest to us in America, where planting labor costs are so high and it may be that an experiment made with American Douglass fir in France will prove to have real value in forestry in America. The whole northern district, Lille, Valenciennes and Hiron, is part of the great coal mining and manu-

HOW STRANGE THINGS SOMETIMES HAPPEN

"I want to write you to let you know that I have taken 2 more doses of May's Wonderful Remedy, and have gained 10 lbs. in the last 2 weeks, although I am thinner around the waist than before, because the bloating in my stomach has all gone and I am feeling like a boy again. There never was anything in this world half as good as this medicine." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. Sold by Gwin & Mays Drug Co., and druggists everywhere.

COMMISSION TO SEEK COST OF EDUCATION

WASHINGTON, Dec. 5.—Appointment of a commission to conduct an investigation of the cost of education in the United States was announced today by the American council on education.

Appropriations totalling \$170,000 have been made for the investigation by the Commonwealth fund, the Carnegie corporation, the General Education board and the Milbank memorial. The personnel of the commission to be entrusted with the inquiry follows: Samuel P. Capen, director of the American council on education, of Washington, D. C., ex-officio; Edward C. Elliot, chancellor of the University of Montana; Elwood P. Cubberley, dean of the school of education, Stanford University; Thomas E. Finegan, state superintendent of public instruction of Pennsylvania; Robert M. Haig, associate professor of business organization of Columbia University; Victor Morawetz, attorney, New York City; Henry C. Morrison, professor of education, University of Chicago; George D. Strayer, Teachers College, Columbia University; and Herbert S. Weet, superintendent of city schools of Rochester, New York.

Dr. Strayer has been selected as chairman of the commission. "The primary aims of the education finance inquiry," an announcement by the American council on education said, "will be to study in typical states and communities the existing program of public education, the extent to which this program is carried out and the present and prospective costs involved. It is proposed to investigate the relation of education expenditures to other necessary governmental expenditures, the methods and possibility of effecting economies."

Notice Scouts. Scout Troop No. 8 will meet at Willard school Thursday evening instead of Friday.

Do you want to buy meat or eggs or butter direct from the farm? Find a farmer to supply you by advertising in the Ada Weekly News. They all read it.

facturing center of France which the German army so thoroughly demolished and because of their location at the door of reviving industry the woodlands here, splashed with patches of American trees will hold some of the highest commercial value of any forests in the world.

CHRISTMAS SEAL DRIVE TO REACH GOAL, IS BELIEF

OKLAHOMA CITY, Dec. 5.—(Special)—That the 1921 Tuberculosis Christmas Seal sale will reach its goal of \$100,000 was indicated today when first actual reports of response to the sale were received at the office of the Oklahoma Public Health association according to Jules Schevitz, general secretary.

Reports from every section of the state show that in the opening days of the sale many health bonds and thousands of the Christmas seals have been bought to be put on letters and packages in the state and to carry a message of health and good cheer into the homes of the nation. Cities from which particularly optimism reports have been received indicate a heavy sale including Bartlesville, Drumright, Shawnee, Durant, Perry, El Reno, Lawton and Muskogee.

If the state is to maintain its health standing among the other states of the nation an average per capita sale of five seals to every man, woman and child in the state must be sold. Early days of the sale being spent in the solicitation of business firms and heavy individual subscribers. After this work has been completed, sales by mail, from booths and by school children will be emphasized.

More than 10,000,000 seals and thousands of health bonds have been distributed over the state. Sunday, December 4 was health Sunday and the opening day of Health Week proclaimed by Governor Robertson. Ministers read special tuberculosis prayers from their pulpits and other special services were held.

CONFERENCE TO BE HELD ON RIVER QUESTIONS

RIVERSIDE, Calif., Dec. 5.—An open forum, international in its attendance, will be held here December 8, 9, and 10, on the question of development of the Colorado river under auspices of the League of the Southwest. It will be a series of extraordinary debates of every phase of the controversy concerning development of the Colorado, and extending into an international discussion of policies of water and power development in general. Every city and district involved

in the Colorado river discussion will have its champion at the meeting. Simon Bamberger, former governor of Utah, will represent Salt Lake City. Denver's interests will be voiced by E. M. Ammons, former governor of Colorado. Phoenix will be heard through Richard E. Sloan, former governor of Arizona. William Mulholland, chief engineer, will speak for the power bureau of Los Angeles.

Mexico will be represented through a delegation jointly from Sonora and Lower California states, confirmed by President Obregon. Public enterprises in general will have for their champion Sir Adam Beck, of the Hydro-Electrical commission of Ontario, Canada, and probably by Rudolph Spreckles of San Francisco. Municipal ownership ideas will be presented by Mayor Horace Porter of Riverside, Mayor Bartlett of Berkeley and other officials and civilians.

Interest by the federal government will be manifested by the probable attendance of Herbert Hoover, secretary of Commerce, Albert B. Fall, secretary of the interior; Commissioner Burke of the Indian Bureau; Commissioner Spry of the Land office; Director Davis of the United States Reclamation Service; Secretary O. C. Merrill of the Federal Power Commission; Lieutenant Colonel William Kelly, engineers corps, war department.

AMERICAN LOST ON ISLAND FOR 20-YEAR PERIOD

MANILA, P. I. Nov. 15.—(By Mail)—Shipwrecked and marooned for twenty years on one of the Caroline Islands, is the experience of an American, James Howard, sole survivor of the American bark, Horation, which went on the shoals of Kusal Island in 1901. The news of Howard's condition was brought here this week by Dr. William H. Hobbs of the University of Michi-

gan who has been engaged in seismic research work in the Caroline group.

Dr. Hobbs said Howard was cared for by the natives and finally became agent at Panope for a German trading concern, which place he held until the Japanese took over the islands, under the mandate from the league of nations.

A year and a half ago, a stroke of paralysis made Howard almost helpless and unable to work. Since that time he has been taken care of by Chief Nampel of Roukiti who has given him food, clothing and medicine.

"Chief Nampel has American blood in him, speaks English well and is a man of sterling integrity," said Dr. Hobbs. Howard's case was laid by Dr. Hobbs before acting governor, Charles E. Yeater of the Philippines who has suggested to the war department that the Japanese be asked to furnish transportation from Panope to Yokohama for Howard, so that he may take passage on an army transport and finally reach his home in Utica, O.

UNIFORM MARRIAGE AND DIVORCE LAWS SOUGHT
WASHINGTON, Dec. 7.—(Capital News Service)—Legislation looking to the submission to the states of a constitutional amendment under which congress would be given the authority to enact uniform marriage and divorce laws is to be pushed during the regular session of congress. Delegations represent-

ing various Protestant church bodies have appeared before the judiciary committee of the senate to urge favorable action on a resolution of this character.

Your Wife, Your Children---

This is The Sixth Day They May Be Embarrassed!

Of course you do not wish to embarrass your family. You would not willingly do so; yet think of the embarrassment they would be caused if they should BE REFUSED CREDIT at some store, because you had not paid your bill. You'd be pretty sore at that Credit Man, wouldn't you? Still it would all be your fault; rather, the fault of your carelessness.

Why cause such a humiliation to both of you? If you have been a little negligent in the past, why not let this be a warning? Time to reform.

PRINCIPLES OF CREDIT BEING TAUGHT IN SCHOOLS

The basic principles of both retail and wholesale credit are being made a part of the regular courses in many schools, and the day is not far distant when every progressive school and business college will adopt the subject of Credit as a regular study.

Has it ever occurred to you what your boy, your girl, will think of a parent who "does not pay his bills?"

That faith of a child in its father, its mother, is a wonderful thing. Would you want to destroy it?

If you haven't kept every promise as you should, start over, NOW, before it's too late. Be the man or woman that your children think you are. If you don't care about your own reputation think of their future.

MISS FRANCES NEWMAN,
Chicago, Ill.

"Only a medicine of truly wonderful merit could have done what Tanlac did for me and there is nothing half good enough for me to say about it," said Miss Frances Newman, 2639 Hirsch St., Chicago.

"I don't think anybody ever suffered any more from indigestion than I did and for over a year I was in wretched health. I had smothering spells and my heart palpitated so violently I thought I had heart trouble, but I know now it was all caused from my stomach."

"Since taking Tanlac I feel and look like a different person. I have a splendid appetite and my digestion is just perfect. I sleep eight or nine hours every night and get up in the morning feeling fresh and happy. My friends tell me I'm always smiling now and I certainly ought to be, for I'm enjoying life again."

Tanlac is sold in Ada by M. A. Walts and druggists everywhere. (Adv)

BANQUET AND RALLY FOR FRIDAY ARE CALLED OFF

The banquet and rally which had been planned by the First Presbyterian church for Friday and Friday night of this week when representatives of the Home Mission board and the New Era Movement were to be here, were cancelled today by church officials.

This was done because of the Chamber of Commerce drive and banquet which conflicts.

Prayer meeting will be held by the church tonight at 7 o'clock and Sunday night services will start at 7 o'clock hereafter.

Christmas Seal your Christmas mail.

Neglecting That Cold or Cough?

LETTING the old cough or cold drag on, or the new one develop seriously, is folly, especially when at your druggists, you can get such a proved and successful remedy as Dr. King's New Discovery. No drug, just good medicine that relieves quickly.

For over fifty years, a standard remedy for coughs, colds and gripes. Eases croup also. Loosens up the phlegm, quiets the croupy cough, stimulates the bowels, thus relieving the congestion. All druggists, 60c.

Dr. King's New Discovery For Colds and Coughs

Wake Up Clear Headed. That "fired out" feeling mornings, is due to constipation. Dr. King's Pills act mildly, stir up the liver and bring a healthy bowel action. All druggists, 35c.

proved by the president on August 9, were transmitted to Legion posts today in the same bulletin.

Men who were disabled in service, but not totally and permanently disabled, may reinstate their insurance now by making application to the Director of the U. S. Veterans' bureau, Washington, D. C., and paying all monthly premiums since the policy lapsed plus five percent interest compounded annually. This is the only opportunity which most of these men have to obtain insurance of any character since private insurance companies will probably not accept them as risks. Each man making a reinstatement under this provision must submit proof that his disability was caused by service.

BERNICE CATRON, COLLEGE STUDENT, DIES WEDNESDAY

Miss Bernice Catron, daughter of Mr. and Mrs. C. B. Catron of Byars, Okla., died at the home of Mr. and Mrs. M. L. Bronaugh, 931 East Tenth street here at 9:30 this morning, following an illness of more than two weeks of typhoid fever. She was a student of the East Central State Teachers College.

Miss Catron was one of the most popular girls in the college, and was a member of the senior class. For the past two years she has attended the school and was making plans to enter the University of Oklahoma after Christmas. She has taken part in many school affairs,

which was followed by a large number of friends, left the Criswell-Meyers chapel at 2 p. m. today for Byars.

Miss Catron was 18 years of age. Members of the College faculty who knew her as a student are high in their praise of her as a remarkable young woman. Her father is president of the American National bank at Byars.

Grandfield, Okla.—One of the best known farmers of Tillman County, Mr. G. W. Tisdale, who owns and manages a wagon yard here, says:

"I have used Theodor's Black Draught—I believe I can safely say for fifty years."

"I was born and reared in Texas, Freestone County, sixty-four years ago. I have been married forty-four years. My father used Black-Draught before I was married, and gave it to us . . .

"For forty-four years of my married life, it has had a place on our medicine shelf, and is the only laxative, or liver medicine, we use. We use it for torpid liver, sour stomach, headache, indigestion . . . I don't think we could get along without it, knowing what it has done for us, and the money it has saved. It is just as good and reliable today as it was when we began its use. My boys use it and they are satisfied it's the best liver medicine they have ever used."

Theodor's Black-Draught is purely vegetable, not disagreeable to take and acts in a prompt and natural way. So many thousands of persons have been benefited by the use of Theodor's Black-Draught, you should have no hesitation in trying this valuable old well-established remedy, for most liver and stomach disorders. NC-139b.

Why Discard Them

Shoes are better quality today than formerly, and consequently more expensive. They are worth repairing and you'll find by bringing them here, you'll get double the wear out of your shoes and find them less costly in the long run.

Take Yeast Vitamon Tablets To Put On "Stay-There" Flesh

More "Pep" and "Punch"—Small Cost.

Thin or run-down folks will find this simple test well worth trying: Take Mastin's VITAMON—two tablets with every meal. Then weigh and measure yourself each week and compare taking Mastin's VITAMON regularly until you are satisfied with your gain in weight and energy. Mastin's VITAMON Tablets contain highly concentrated yeast-vitamins as well as the two other still more important vitamins (fat soluble A and water soluble C), all of which science says you must have to be strong, well and fully developed. By increasing the nourishing power of what you eat Mastin's VITAMON Tablets supply just what your body needs to feed the shrunken tissues, strengthen internal organs, clear the skin and renew shattered nerve force without upsetting the stomach or causing gas. A two week's test will surprise you!

IMPORTANT! While the amazing health-building value of Mastin's VITAMON Tablets has been clearly and positively demonstrated in cases of lack of energy, nervous troubles, anemia, indigestion, constipation, skin eruptions, poor complexion and a generally weakened physical and mental condition, they should not be used by anyone who OBJECTS to having their weight increased to normal. Be sure to remember the name—Mastin's VITAMON—You can get Mastin's VITAMON Tablets at all good drug stores.

The Winning Punch! Get It Yourself By Taking Two Mastin's Yeast VITAMON Tablets With Every Meal.

Are Positively Guaranteed to Put On Firm Flesh, Clear the Skin and Increase Energy When Taken With Every Meal or Money Back

MASTIN'S VITAMON

"The Old Nest"

seems to live itself into your consciousness until all its characters are a part and parcel of your human experience. Truly a Goldwyn—Rupert Hughes screen masterpiece.

KING GEORGE TO DIRECT COUNCIL

Special Parliament Session Wednesday To Consider Irish Question.

(By the Associated Press)
LONDON, Dec. 7.—King George came to London from Sandringham today to preside at a meeting of the privy council and to sign a proclamation calling a special session of parliament for Wednesday and to consider the momentous agreement reached yesterday between Great Britain and Ireland for the establishment of the Irish Free State.
Should the agreement be ap-

proved, of which little doubt is entertained, the session will last only a few days and parliament will adjourn until the regular session in February when a bill embodying the agreement will be dealt with.
The King is expected to open the special session in person, in which case the ceremony will assume the dignity and magnificence of a regular opening of parliament. The king's speech will deal entirely with Irish questions and the debate, which ordinarily on such an occasion touches upon every subject with which the parliament has to do, will likewise be limited to the Irish question.
Notice Eastern Star.
The Order of the Eastern Star will meet in regular session, Thursday evening at 7:30. Annual election of officers.—Mrs. Byrd Nesbit, secretary.
Mrs. Ed Wallace of Francis was shopping in Ada Tuesday afternoon.
Why not sell those extra hens about the place? A News want ad will sell them to advantage.

HOW PRESIDENT HARDING'S VOICE WAS CARRIED TO CALIFORNIA

ARLINGTON MEMORIAL AMPHITHEATRE WHERE THE PRESIDENT SPOKE

TELEPHONE EXPERTS SPEEDING THE PRESIDENT'S VOICE ACROSS THE CONTINENT

The science of sound transmission reached the highest point ever known when every word spoken at the ceremonies over the bier of America's unknown soldier at Arlington National Cemetery, Washington, was heard distinctly in San Francisco, 3,000 miles away. Just how the feat was accomplished is now told.

Not only were thousands and thousands of miles of copper wire, manned by hundreds of operators, necessary to carry the voice of President Harding and others over the valleys and mountains to the western coast, but in the basement of the Arlington Memorial Amphitheatre was a veritable electrical plant costing thousands of dollars, at which keen-eyed experts sat and gauged every vibration as it sped instantaneously to the thousands of auditors on the Pacific Coast and in New York City. This achievement, which was never obtained before, is the result of what is known as the Bell Loud Speaker.

Possibilities of Voice Transmission.
While the transmission of the President's voice to waiting thousands in New York and San Francisco was a patriotic contribution on the part of the American Telephone & Telegraph Company, it marked what is expected to be the most notable development in voice transmission of the century. It opens the possibility of reaching practically the entire United States in one day with the spoken word. Colonel John J. Carty, head of the Bell system department of development and research, who brought the mechanism which transmitted the President's voice to its present high state of perfection, is the man who was in charge of the lines of telephonic communication for the American Expeditionary Forces in France. He is a wizard of the wires.

When Colonel Carty was asked what he considered the most important feature of the Bell loud speaker development, he said, "The change that it is bound to create in the art of oratory. Heretofore orators have been chosen largely for their loud voices, their capacity to reach the ears of those at the back of the hall. We will make it possible for any ordinary man with common sense, possessing the average speaking voice, to get his thoughts into the minds of as many auditors as he may want to reach. Effective addresses by our plan can be made by men speaking no louder than a chairman does when he reports to his board of directors, or when a teacher speaks to his students in the classroom."

CEMENT COMPANY TEAM GOES INTO FAST COMEBACK

What is termed by the manager and other officials of the "club a come back from our first defeat" was enacted in the high school auditorium Tuesday night when the Oklahoma Portland Cement company basketball team took a fast, stiffly contested caging contest from Francis high school by a score of 22 to 19. A new lineup was used by the cement team, which proved effective in heading off the invading high school cagers.

The Cement plant quintet lost its first game in the city league to the high school. As Francis high school had defeated the local high school team by a close score, the dope was in their favor.

The cement men were not to be bothered by dope, however, and staged the promised "come back." According to the general opinion of the players, the team is now launching into what they term an attack to get back what has been lost and to win a desirable standing in the city league.

Lineup.
Pos. Cement Co.
Willingham — F. — K. Hensley
Miller — F. — B. Hensley
Rose — C. — Korr
Murphy — G. — Rogers
Patterson — G. — Riddle.
Smith substituted for B. Hensley in last half.

Christian Men's Club Fed Tuesday Night By Church Matrons

The Men's Club of the First Christian church met in regular session at the church last night. A dinner was served by the Young Matrons' Circle and short addresses were delivered. Dr. A. Linscheid being the principal speaker. No business matters were discussed on account of the short session. Adjournment followed immediately after the luncheon to allow many of those present to attend the concert at the College auditorium given by the University Glee club. The Men's Quartet of the Christian church also rendered a number at this meeting.

The Men's Club of the Christian church was organized a few weeks ago. It has for a purpose the promotion of all projects in the church and plans to put over every enterprise that is undertaken. It will function in the church along the same lines that the Lions Club does in the city, it was explained. Orel Busby was elected the first president of the club and C. P. Penrose the secretary.

13 BODIES RECOVERED IN GERMAN EXPLOSION

BERLIN, Dec. 7.—The bodies of only 13 of the more than 100 persons killed in an explosion yesterday at the Nobel Dynamite Works at Saarbrücken, Prussia, have been recovered, according to the latest reports received here. The number of injured has not been ascertained. The explosion, which occurred in an oil tank, destroyed the greater part of the factory.

Robert Wimbish transacted legal business in Norman the week-end.

SOUTHERN CITY JOINS IN THANKS

Will Hold Entire Week of Thanksgiving to Help Morals.

(By the Associated Press)
DALLAS, Tex., Dec. 5.—"Dallas Gives Thanks" was the unique slogan adopted by the business men of this city during a week of Thanks giving ending on Thanksgiving Day and set aside specifically for the purpose of stimulating the morale of Dallas residents by "encouraging them to properly recognize and appreciate their blessings and opportunities" and to minimize the effect of "hard times." The observance thought here to be the first of its kind ever initiated by the business men of any city in the country.

In the belief that "not only high buildings, but road foundations, deeply laid," best exemplify the thought and life and physical existence of the city of Dallas, the local chamber of commerce and kindred organizations launched the week of Thanksgiving on November 17 with a luncheon attended by leaders in the city's development. This was followed by services on Sunday in all the churches that gave particular emphasis to Thanksgiving. The schools, various civic organizations as well as employers in the business life of the community all fell in line with the aim of the week. Daily programs at luncheons, schools and civic centers were held in line with the observance, culminating in a great community mass meeting in the local coliseum on Thanksgiving evening.

One of the features of the week, as the observance related to the business life of the city was the use of rubber stamps bearing the slogan "Dallas Gives Thanks" by merchants generally.

Two Ada Men Serve As Jurors for U. S. Court at Chickasha

Two Ada men, P. S. Case and L. D. Brandon are sitting as petit jurors at Chickasha during a criminal session of federal court which opened Tuesday with Judge R. L. Williams presiding. The term is scheduled to end Thursday. Alleged violation of the national prohibition act makes up a preponderance of the 35 cases docketed for trial.

Some cases in which Pontotoc county is interested are Bill Martin, Iddo Sparkman and Tom Jones, charged with violation of the national prohibition act; J. C. Foster, liquor charge; J. C. Foster, Will Arnold, H. H. Hudson, and J. E. Fussell, liquor charge; L. W. Patterson and Leo Rains, larceny of interstate shipment.

The United States' luxury tax amounts to \$50,000,000 a year and is collected in articles purchased mainly for or by women.

FOCH TO TRAVEL 16,000 MILES IN TOUR OF U. S.

When Marshal Foch, now on a tour of the country with the American Legion, returns to New York December 14 to sail for France on the liner "Paris", he will have traveled 16,000 miles, visited 42 states, and stopped at 200 cities and towns. He made his 245th speech at Richmond, Va., before starting west and had received the degree of J.L.D. from 21 American universities.

LEGION POSTS TO OMIT WAR TAX ON CONTESTS

Posts of the American Legion and units of the American Legion Auxiliary will not be forced to collect war tax on athletic games or entertainments given solely for post benefit after January 1, 1922, under the amended revenue act recently passed by congress. All money received from dances, theatrical performances or athletic events will be retained by the post after the first of the year. The provision is effective only if all net receipts are devoted to the post's treasury.

JOHNSON SHOWS WHAT LEGION IS SEEKING

Members of the Gracemont post of the American Legion and representative citizens of the city attended a Legion banquet at that place last Friday evening at which Senator Fred Johnson of Walters, was the guest of honor. In his address to the citizens and Legionnaires, Johnson outlined the history of the Legion and the principles for which it has stood. He told of the activity. At the close of his address the citizens pledged full support of the post in all future enterprises.

CITY ATTORNEY RESIGNS TODAY OFFICIAL DUTIES

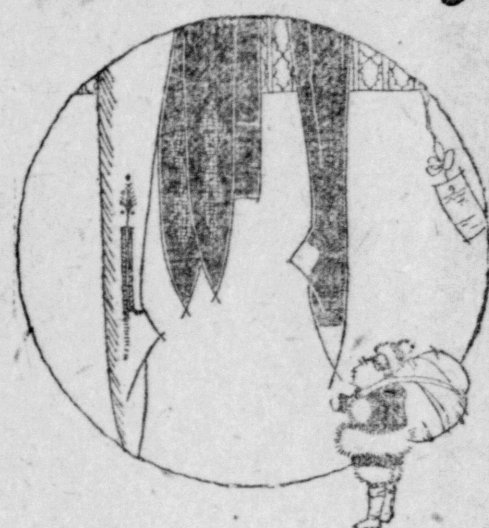

City Attorney J. W. Dean tendered his resignation as such to the city commissioners this morning, requesting that his release from this office take effect immediately.

Mayor Gary Kitchens was absent from the city and Dean handed this statement to W. S. Smith, street commissioner. This is expected to be acted upon by the city commissioners as soon as the mayor returns.

Mr. Dean made no statement this afternoon in connection with his action reserving the right to make his statement in detail later if it became necessary.

Arthur Nesbitt of Konawa was a business visitor here today.

LOOKING FOR A NICE WIFE, BOYS? THESE BEAUTIES ARE COMING TO U. S.

These pretty Russian refugees, once of wealthy families and for this reason exiled by the Bolsheviks, are in Constantinople awaiting transportation to the United States. They admit that one of the chief reasons for their coming to this country is their fondness for American men, four of whom they hope to snare as husbands.

SPECIAL SESSION OF LEGISLATURE ASKED

(By the Associated Press)
OKLAHOMA CITY, Dec. 7.—A special session of the state legislature to consider "needed amendments" to strengthen the state banking board in extending temporary support to the state guaranty fund, is mentioned in a resolution adopted by the committee of ten, appointed late yesterday, at the annual convention here of the Oklahoma state bankers association to investigate the state banking condition.

The resolution recommended that the legislative commission of the association be instructed to prepare a tentative plan of strengthening the banking laws for the consideration of the legislative authority of the state and the governor. If members of the legislature approve the calling of a special session, the matter is then to be presented to the governor for his consideration, the resolution provides.

BUSINESS MEETING OF CHURCH FOR TONIGHT

The monthly business meeting of the First Baptist church will be held tonight in connection with the prayer meeting service. At this time there will be reports by the heads of the various organizations in the church, all B. Y. P. U.'s, departments of the Sunday school and the general secretary of the Sunday school, the Woman's Missionary Society, Boy Scouts, the pastor, the

NINE YEAR CASE ENDED TODAY ON THLOCCO DEBATE

(By the Associated Press)
MUSKOGEE, Dec. 7.—Nine years of litigation over the famous Barney Thlocco oil allotment in the Cushing field has been settled, it was announced officially here today. The allotment becomes the property of the Black Panther Oil company and Martha Jackson, Creek full-blood, an incompetent of Oklahoma county, immediately comes into possession of \$308,000.
A. J. Ward, Creek tribal attorney, announced upon his return today from Washington that the settlement had been approved by the secretary of the interior. There were 174 claimants to the allotment, which government officials said had produced \$6,000,000 worth of crude oil.

If you have something to sell, why not advertise it in the Ada Evening News? That is the quick and certain way to reach the buyers of Ada and other towns of the county? Want ads do not cost much.
Christmas Seal your Christmas mail.
